WORK AND PROJECT EXPERIENCE

Office of Diversion and Reentry of the Department of Health Services of Los Angeles

Los Angeles, CA

Project Owner and Manager / June 2017 – Present

- Oversaw the development, closure, and support of EMR + EHR software, helping scale a new county Health Department from three employees to over one hundred and helping over 10,000 individuals who suffer from mental health issues find a recovery path and permanent housing within the public health system.
- Managed the full development life cycle of the EMR and EHR, overseeing the successful shipment of feature updates from end to end.
- Led cross-functional collaboration with four heads across Engineering, Product Management, UX/UI designers, and Quality Assurance, aligning technical scope development to stakeholder requirements.

Codistry - Web Development, UXUI Design and Digital Marketing Agency

Los Angeles, CA

Founder – Product Owner and Project Management / Jan 2019 – Present

- Spearheaded new lead generation and managed client accounts, resulting in recurring business from multiple clients in industries ranging from sports and music entertainment to social justice and e-commerce.
- Managed a remote team of 23 contractors across various time zones.
- Developed and implemented vital process improvement initiatives, resulting in a 500% growth in annual revenue and significant business scalability.
- Led communications and crafted compelling pitch presentations, securing new major clients and partnerships. Coordinated project timelines and resources, effectively aligning team efforts with client priorities to ensure on-time delivery of project milestones.

The Claremont Colleges – Full stack Web Developer

Los Angeles, CA

Full Stack Web Developer

June 2016 - May 2020

- Developed and maintained *ADA* and *GDPR-compliant* websites, ensuring accessibility standards were met for multiple intercollegiate programs serving students, staff, and faculty.
- Managed web-related technical requests from internal staff, enhancing intra-collegiate collaboration across 7C institutions and delivering tailored digital solutions to help multiple TCCS departments such as HR, Communications, and Leadership.

Brandify

Los Angeles, CA

Sr. Web Developer

Apr 2015 – Nov 2015

- Developed innovative digital solutions for the Marketing Department to increase campaign effectiveness and customer engagement.
- Engineered high-performance locator pages for multinational enterprises, enhancing online visibility and user experience.
